DETAILED ACTION

The IDS and cancellation of claim 18 is acknowledged.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The closest prior art of record is USPN 6,110,574 to Ochi et al. teaching a retroreflective sheet with adhesive and a fluorine-containing resin film and USPN 5,213,872 to Pricone et al. teaching printed retroreflective sheeting. However, there is no motivation to combine the references and the references alone fail to teach the claimed invention. The novel feature of the instant application is the spacing and length requirements of the printed parts, e.g. "printed parts having a maximum printed length of each part being 10 mm or smaller, and an interval of isolation between each part being at least 1 mm at the narrowest". Thus, the invention is allowable based on these differences.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
